Dear bigoted VA employees;

my bloodline is mixed Afro-black- native American, which is original nation peoples to you. Also, in it is Jewish, Russian and German, which are among the most persecuted races on this planet. When you discriminated against me, you judged them and selves, too. Odd is it not what people say and do always is about them, which means you, and never the object of their intolerance? You are the holocausts, ethnic cleansings, genocides and worse that some of your nation constantly plays in being poor little me-too, victims. In other words your persecution of others confirms the very intolerance in you that the black nation claims to oppose. The only apology I'm allowed to make from my nation to you is that my ancestor's only sin was not allowing the immigrant, pilgrim, Christians to die starving in our maize fields their first winters to instead out of true brotherly and sisterly love taught them to survive. For our kindness they repaid us in broken promises [like you folks at the VA do to vets], slavery, hatred, murder, rape, theft, genocide and more calling it Christian virtue and love,

and now as a veteran I face you acting just like them! But for that bad judgment on our part, blacks would've met this country as free peoples, like the black French Freemen who intermarried into my ancestor's – the indigenous tribes of this nation, as Freemen blacks not as slaves to our oppressors. The black nation seems to miss that inconvenient point!! Your oppressors began with us a century or more before slave ships imported you here, and we still suffer while you bitch about your blessings that we do not share. Therefore, the only apology I will extend to your nation is out of our aforementioned, HUMANE, BAD JUDGMENT towards other humans, and nothing more.
